SUBJECT.

Forwarding the special report on the seasonal conditions in the affected tracts of the Kolar District.

Special report on the Season Conditions in the affected tracts of the Kolar District for the week ending Saturday the 27th October 1923.

Bagepalli.

During the week there has been some rain all over the taluk which has considerably improved the condition of the standing crops. Sky is cloudy and heavy showers are expected. More rain is urgently wanted.

Labour is available for cooly classes. Gadidam well and - Bhojanasala works and Hosa Hudya tank work are going on. Somanathapura tank maintenance work will be commenced. There is water in other tanks

Drinking water is available for men and cattle.

The private grain depot at Bagepalli is working well. There is no demand for fodder at Bagepalli and Pathapalya depots.

Up to date a sum of Rs. 1215/- has been disbursed as Takavi loans. The Amildar asks for a further allotment of Rs. 1250/- for granting loans for the purchase of bullocks.

Public health is generally good except for relapsing fever in Somanathapur.

Gudibanda.

During the week there was a rainfall of 30 cents in Gudibanda and almost the same quantity in the villages to the South of Peresandra - Goribidnur road in the Kasaba Hobli. There was no rainra in any of the villages of Somenahalli Hobli and the remaining parts of the Kasaba Hobli. Rain is badly wanted through-out the Sub Taluk. Standing crops are in fairly good condition in most parts of the Sub Taluk but in some places they are fading for want of one or two good showers.

As the need for labour was felt in Gudibanda and some of its adjoining villages, and in some other villages near Hampasandra, Byrasagara tank maintenance work and the repair of the portions of Bagehalli-Vatadahosahalli road were immediately started. The unusually long break in the monsoons has begun to affect parts of Somenahalli Hobli also where difficulty for labour is just being felt by the cool classes. In order to provide relief to them and also to those in some parts of Kasaba Hobli, the Deputy Amildar has requested the Assistant

Engineer to start the following works:- (1) Hampasandra tank maintenance work (2) Improving the feeder channel to Puligumba tank (3) Kerrelakkenahalli tank maintenance work (4) Jangalahalli tank repair work (5) repairs to feeder channel of Palampalli tank (6) - restoration of Ramappanakunte near Dhandoor (7) restoration of Sinakunte near Bhagenahalli (8) Someswaratank maintenance work (9) Opening a road from Kellodu to Hill temple.(10) earth work to Bullesandra tank. The works already started are in progress.

Drinking water is available for men and cattle.

The grain depot at Gudibanda is working fairly well.

Loans to the extent of Rs.675/- were disbursed during the week, the total amount granted up to date being Rs.2480/- against an allotment of Rs.4100/-. The Deputy Amildar asks for an additional allotment of Rs.3000/- for the disposal of applications for large sums of Rs.100 and above.

Public health is generally good except for relapsing fever in two villages of the Kasaba and Somenahalli Hoblies.

Goribidnur.

There was no rainfall during the week. The ragi and navane crops on hard soils in parts of Nagargere, Kasaba and Hosur - - Hoblies as also a few villages of the Dhonde Bhavi Hobli are reported to have wilted.

The petty works newly started are in progress. The D.B. have started the tank maintenance works of Nagargere, Kotthur, Manivar and Velpi. Further the temple work at Dadinaikanapalya and the Vatadahosahalli - Nagargere road work are also going on. To add to these notragi and navane are being harvested here and there. There is no lack of employment for those that need.

Demand for private grain depots is slack. Every shandy is getting large supply of grain. Of the two fodder depots, the one at Vatadahosahalli is not able to transact much business.

Generally there is no difficulty for water supply. In some villages temporary wells are being sunk for the panchamas etc difficulties having been experienced for water.

The total allotment given so far for the Taluk amounts to Rs.8450/- of which Rs.5613/- has been actually spent. Cheques

under issue for Rs.735/-.

Public health is generally good except for relapsing fever in some parts of the Hosur Hobli. Plague is subsiding in Goribidnur and its neighbourhood. Thondebhavi is free and has since been reoccupied. The Local Sub Assistant Surgeon is treating the patients suffering from relapsing fever.

Cattle are also healthy and pasture is available.

For Deputy Commissioner,

Kolar District.

SUBJECT.

Forwarding the special report on the Seasonal conditions from the Deputy Commissioner, Kolar District for the week ending 27th October 1923.

D.O. No.O.C. 107/23-24 dated 2nd November 1923, from the Deputy Commissioner, Kolar District, to the Revenue Commissioner inMysore.

GENERAL.

Intimation has since been received of rainfall as noted in the margin. This rainfall will do much good to the crops in the Bagepalli Taluk and may be of some help in the affected parts of Gudibanda and Goribidnur also. We want tank-filling rains to stave off the worst.

1.	Goribidnur.	60 cents on 28th October 1923.	)
		29 " 29th " "	)
2.	Gudibanda.	66 cents on 28th " "	)
3.	Bagepalli.	65 cents on 28th. " "	)

During the past fortnight, the sub-division officer, under my orders made a careful and detailed inspection of a large number of representative villages and the tract interviewing the people and noting specially the condition and requirements of the Panchamas and other poorer classes. I am proceeding again to the tracts directly.

Orders wanted. Additional grant of Rs. 5000/- for Takavi and of at least Rs. 10,000/- for the drinking water fund of the District Board as that body has had to incur great expenditure in various ways on account of the distress.

Copy.

For Revenue Commissioner.
